

Abhinita Sanabada

Sunnyvale, CA | (669) 241-8492 | abhinita.sanabada@gmail.com | linkedin.com/in/abhinita-sanabada
github.com/Sanabada | Portfolio

Target: Data Engineering / Data Analyst Internship

SKILLS

- **Languages:** Python, SQL, Java | **Data / ETL:** Spark (PySpark), Airflow, Kafka, ETL, Snowflake
 - **AI / ML:** scikit-learn, Pandas, NumPy, LangChain, LangGraph, MCP, semantic search
 - **Databases / Cloud:** PostgreSQL, MySQL, Oracle, MongoDB, AWS, Azure
 - **DevOps / Tools / Viz:** Docker, Kubernetes, CI/CD, Linux/Unix, Git, JIRA, Splunk, ServiceNow, Tableau, Power BI
-

PROFESSIONAL EXPERIENCE

Wells Fargo | **Senior Software Engineer**

Nov 2021 – Jan 2024

- Designed Java/Spring MVC REST APIs for the **FCM** platform supporting **futures and options** processing across trade, clearing, allocation, positions, margin, and risk workflows.
- Built and optimized **SQL stored procedures** and backend processing logic for large-scale financial data transformations, improving runtime, correctness, and supportability.
- Orchestrated high-volume **EOD batch workflows** using **AutoSys** on Linux/Unix and strengthened production visibility through **Azure migration**, **Dockerized deployments**, **Splunk**, and **ServiceNow**.

SAP Labs | **Software Development Engineer 2**

Apr 2019 – Oct 2021

- Built backend services for an **automotive orchestration and scheduling platform** on **AWS HANA Cloud**, supporting ingestion, validation, and delivery of operational data for globally distributed users.
- Improved orchestration efficiency and service maintainability across a multi-service enterprise application.
- Led a **Kyma (Kubernetes)** proof of concept, containerized services with **Docker**, and supported post-release stability through **Splunk**, **ServiceNow**, and hotfixes.

JPMorgan Chase & Co. | **Software Engineer**

Jan 2017 – Apr 2019

- Developed backend services and enterprise web application components for asset and wealth management workflows supporting global data access and financial operations.
- Built **Spring Boot** services, REST integrations, and data-access layers across **Oracle**, **MongoDB**, and **Kafka**-integrated systems to improve reliability and auditability.
- Enhanced legacy scripts, pipelines, and service integrations while partnering with QA and production support to troubleshoot issues and support controlled releases.

Capgemini | **Software Engineer**

Apr 2014 – Aug 2016

- Delivered reporting and data solutions for banking clients using **Java**, **Oracle**, and complex **SQL**; built dashboards in **Power BI** and **Tableau** for operational and management reporting.

Career Break | **Personal Reasons**

Jun 2012 – Mar 2014

- Took planned time away from full-time employment before beginning software engineering roles.
-

PROJECTS

- **LinkedIn Agentic AI Simulation** (*React/Next.js, FastAPI, Kafka, MySQL, MongoDB, Redis, Docker, AWS*) | GitHub
Built a LinkedIn-style distributed platform with recruiter/member workflows, messaging, analytics, and job applications; implemented Kafka-orchestrated AI workflows for resume parsing and job-candidate matching with WebSocket progress updates, caching, event logging, and failure handling.
 - **Healthcare Affordability Finder System** (*HDFS, MapReduce, PySpark, Spark ML, NLP*) | GitHub
Built a big-data pipeline to ingest **4GB** of CMS pricing data and transform **13.6M+** raw rows into standardized procedure-level records, adding semantic search with MiniLM embeddings and Spark regression for cash price estimation.
 - **Speech Emotion Recognition with Dialogue Context** (*Python, CNN, BiLSTM, Attention, IEMOCAP, MELD*) | GitHub
Developed a real-time speech emotion recognition model combining Log-Mel spectrograms, MFCC features, dialogue context, BiLSTM, and attention; achieved **55.9% accuracy** and **52.4% Macro-F1** on IEMOCAP.
-

EDUCATION

- **San José State University**, San Jose, CA Jan 2025 – Dec 2026 (expected)
M.S. Data Science | Relevant Coursework: Machine Learning, Deep Learning, Generative AI, Big Data, Cloud Computing, Databases, Distributed Systems, Algorithms
- **Biju Pattnaik University of Technology** Jun 2008 – Jun 2012
B.Tech. in Electronics and Communication Engineering
